

2020-2021 Guiding Principles

- **LEARN**

- Foster a love of learning - we are forever students.
- Ignite curiosity – we encourage the natural wonder of every child.
- Awaken worthiness and self-confidence – we grow, explore, try on identities and find joys that last a lifetime.

- **TEACH**

- Teaching doesn't end in the classroom – we know that teaching happens all around us.
- It's about transformation – we understand that every interaction impacts the child.
- Start with respect – we replace judgment with understanding and empathy.
- Communicate – we listen from the other's perspective, but speak from our own.

- **LEAD**

- Leading is being – we're all leaders in various forms- leading ourselves and others.
- Creating Connectedness – the chain of success starts with the child and ends with us.
- See the possibilities – we look beyond the obvious and prepare for future life paths.

- **SERVE**

- Foster our community – by serving each other as well as ourselves, we create unity.
- Participate and contribute – we are actively involved and dedicated to giving back.
- Celebrate - share the moments, have fun together and enjoy our success.
- Conduct self in a manner that is respectful and thoughtful to others. Promoting the welfare of all within the Clariden community.

The Clariden School strives to promote and sustain a school culture that fosters, enhances and creates an educational experience that is based on a shared sense of responsibility, respect and pride for self and community.

The above principles guide our practices and our actions while being a part of the Clariden community. I have read and understand the above Guiding Principles and will conduct myself in a manner that aligns with the above stated guidelines.
